OE FILTERTEK™ FILTER

Filtertek™ is recognized for manufacturing 100% sealed, **never-leak** transmission filters that remain leak-free for the life of the filter. Through its alliance with Filtertek™, Allomatic is the aftermarket distributor of these high-quality, all-plastic injection molded filters. Filtertek™ provides OE filtration for automotive, truck and commercial vehicle systems, from powertrain to power steering, braking to suspension and hydraulics for many domestic and import manufacturers. Quality is assured by Filtertek's™ QS 9000 certification.

- ADVANTAGES**
- Patented 100% sealed never-leak filters
 - Vibration welded seam for maximum strength
 - OE media filtering to 60 microns
 - High-strength heat resistant plastic with 33% glass content
 - Impact resistant
 - Premium filter media offers maximum debris protection
 - Recyclable

This image shows a full-page view of a digital note-taking application. At the very top, there is a solid dark gray horizontal bar. Centered within this bar is the word "Notes" in a clean, white, sans-serif font. Below this header, the rest of the page is filled with a series of thin, light gray horizontal lines, creating a ruled or lined effect typical of notebook paper. The background between the lines is a very light gray, while the lines themselves are a slightly darker shade of gray.

“I installed our first Zip Kit on a U140F, nice kit and additional information. What was really nice: to have at your fingertips the vacuum testing locations and the effects of the wear in that bore. Without this info, I might not have vacuum tested and missed this problem. Nice kit, Sonnax.”
